

## Pro6Sigma Champion

### A 1-day Introduction Course for Six Sigma Project Sponsors

This 1-day course is a must for managers with an interest in and sponsor responsibility for Six Sigma projects. It addresses the major topics of Six Sigma, and it helps to ensure the successful implementation of Six Sigma in your organization.

**You must have completed the pro6Sigma Light Course in order to attend this day**

#### Objective

- To provide the best preparation for a perfect performance of your role as a Six Sigma Champion
- To guide you through the team and personnel requirements for Six Sigma projects, including special Six Sigma tools and features

#### Content

- Ready for high expectations? What Six Sigma promises
- Six Sigma deployment strategy
- Personnel and training requirements
- Customer focused quality projects
- Project selection and sponsorship

#### Method

This course uses a mix of theory, discussion and study cases with a strong orientation towards the practical aspects of Six Sigma implementations

The facilitators employ their broad and long experience to give you hints and tips, to inform you and to answer all your questions

#### Dates and Price

The fee for this course is 600 Euros
