

Situational Leadership – ½ day Workshop

DESCRIPTION

This HALF-day fun, interactive and highly reflective workshop uses useful exercises, tools, techniques and presentations to learn about the Situational Leadership model – what is it, how does it work and how can you effectively use this model to become a better Leader.

The workshop also helps you understand better how to **really** communicate and give feedback.

OUTLINE

This workshop focuses on:

- Understanding Situational Leadership
- Assessing Team Member Readiness
- Effective Communication and Feedback
- Leader vs. Manager
- Situational Leadership in Practice

BENEFITS

This short half-day workshop uses the principle of “little theory, much practice” allowing you to take back **real** skills, tools, and techniques that you can apply immediately in your work environment.

It is a workshop tailored to all staff who need to improve their leadership, communication and feedback skills in a short time.

Participants will understand what comprises effective Situational Leadership, communication and feedback. What to do, what not to do, and to practice these skills in a safe environment.

In order to build a bridge between theory and real life, each participant will be asked to choose 3 objectives that they will accomplish based on what they have learned in this workshop. And 3 months after the workshop, we will organise a group conference call to discuss if the objectives were achieved, and if not, why not and what we can do to help.
