

PROJECT MANAGEMENT PROFESSIONAL (PMP)[®] — CERTIFICATION TRAINING

This 4-day interactive course is intended for experienced Project Managers (min. 3 years full-time in the last 8 years) who wish to gain the Project Management Institute (PMI)[®] PMP[®] Certification. The 4 days are split into two sessions of 2 days over 3-4 weeks.

Objective of the course

The course has one main objective:

To prepare participants to take and pass the PMP[®] Certification Exam.

Our facilitators have successfully trained over 4000 Project Managers in the last 15 years.

Content

Module 1: The framework and context of project management and the various methodologies

Module 2: An introduction to Agile

Module 3: The business considerations which influence the choice of projects and the benefits expected

Module 4: The role of the project manager and the project team

Module 5: Common tools and techniques used in project management

Module 6: The importance of communications in engaging and motivating stakeholders

Module 7: Understanding and planning for risks

Module 8: Getting the project off to the right start –Initiation

Module 9: Planning the work to be done by the project team

Module 10: Ensuring the quality of the project and the deliverables

Module 11: Doing the work and controlling project progress

Module 12: Closing the project and transitioning the solution

Method

This course uses a blended learning approach: a well-balanced mix of classroom training and self-study using probably one of the best web-based tools for the exam preparation www.sts.ch/xampmbok6th_demo. The facilitators (certified PMP) have a broad experience as Project Managers of large Projects. Their goal is to give you all the hints and tips you will need to be sure to pass the exam! And they are available to support you by email for any questions after the course.
